Size: 12" x 9" x 8"
Weight Kit: 4 lb 14 oz
Weight Pack: 1 lb 15 oz

This durable, versatile pack features four draw cord mesh pockets and two large velcro closure pockets. There is a removable velcro closure pouch in the center of the kit that has numerous elastic loops on one side and a large clear pocket on the other. The pack has one external zipper pocket. Side retention straps prevent spilling of goods when pack is open. Carry handles or a concealable waist/shoulder strap allow for easy transport of the pack. Features four snap closures on one side for attachment to another pack or system. Made of rugged, durable cordura fabric with large YKK zippers. Pack is MOLLE compatible.

Need your kit a little different? Build your own! Contact us with your specifications for a custom built kit or module today.
